Berkin AKKAYA

Student & Developer

I study **Information Security** in Istanbul Gedik University . I created many **web apps** & published **games** so far and i am passionate about doing more.

I have experience in **React**, **Vue**, **Svelte**, **Firebase**, **CSS/SASS, Python** and **C#**. Besides, i am passionate about **Linux**. I use **Arch** by the way!

PROJECTS

Split – GitHub – Google Play (Unity & C#)

Jumpy – GitHub – Google Play (Unity & C#)

Stay In The Shadows – Google Play (Unity & C#)

Pomolog – GitHub – Time Management Tool (Firebase Auth & DB)

Vueweeter – GitHub – Real Time Clone Of Tweeter (Vue & Vuefire)

Svelte Image Gallery – GitHub – Masonry-Like Image Gallery (Svelte)

PythonLS – GitHub – A Better "ls" Command For Linux (Python)

WeatherScraper – GitHub – A Web Scraper (Python & Selenium)

EXPERIENCE

I completed my **internship** at **Gedik Holding**. I worked on a URL Shortener service, created a UI with **Svelte** and a **REST API** with **NodeJS**.
